Department of Electrical and Computer Engineering
University of Waterloo

April 29, 2019

The exam is based on material we have covered in the lectures & labs.

The exam is cumulative: covers from the first lecture to the last.

Lab material you are expected to know covers Labs 1 through Lab 5.

How to prepare for the final exam:

- 1 Review lecture notes and slides.
- 2 Review the tutorial slides.
- 3 Understand your lab solutions.
- 4 Try old exams.
- 5 Ask for extra help if you need it.

Tips for the Exam:

- 1 Take the time to read the question carefully.
- 2 You can use point form instead of full sentences.
- 3 Do the questions you know (or find easy) first, then move on to more challenging ones.
- 4 Keep an eye on the time.
- 5 Sleep the night before (all nighters are bad).

“The Force is with you, young Skywalker...
But you are not a Jedi yet.”
