Department of Electrical and Computer Engineering
University of Waterloo

August 10, 2019

The exam is based on material we have covered in the lectures & labs.

The exam is cumulative: covers from the first lecture to the last.

Lab material you are expected to know covers Labs 1 through Lab 5.

How to prepare for the final exam:

1. Review lecture notes and slides.
2. Review the tutorial slides.
3. Understand your lab solutions.
4. Try old exams.
5. Ask for extra help if you need it.

Tips for the Exam:

1. Take the time to read the question carefully.
2. You can use point form instead of full sentences.
3. Do the questions you know (or find easy) first, then move on to more challenging ones.
4. Keep an eye on the time.
5. Sleep the night before (all nighters are bad).

"The Force is with you, young Skywalker…
    But you are not a Jedi yet."
